

## 5 Year & 10 Year Awards

The commemorative, hand painted glass mugs are our way of thanking those runners and walkers who return year after year to support Literacy Volunteers of Marion County.

It is not necessary that the five years be consecutive. Larry Taylor received a 5 year award by running in 2000, 2001, 2002, 2004 and 2007. It is also fine to switch events. For example, Stephen Griswold kept his streak intact by switching from the 5K run to the 5K walk one year while injured. (He is one of two individuals who have participated every year.) The fun run/walk also counts toward the awards but we have problems keeping accurate records on the fun runners.

If you observe errors in our tabulations or if you have been overlooked when the awards have been distributed, please contact our race director. We actually got an email this year from a runner who has run 4 years (not in a row) to see if we are still doing these awards.

We apologize for the fact that the fun run/walk records may be a bit incomplete.
